RE: Approval, Draft Environmental Restoration RFCA Standard Operating Protocol For Routine Soil Remediation FY04 Notification #04-02, IHSS Group 400-2 (UBC 440 - Modification Center), October 2003

Dear Mr Legare

The Colorado Department of Public Health and Environment, Hazardous Materials and Waste Management Division (the Division) hereby grants approval for the subject document. A comment resolution meeting on November 13, 2003 was successful in resolving the Division's verbal comments. Please re-issue the document for verification and completion.

As stated in the Notification, "additional characterization will be conducted to determine whether RFCA WRW ALS are exceeded [Section 2.3, Screen 1]" Since the SAP Addendum was just approved, the extent of excavation and remediation, if any, has not been determined. Accordingly, application of this Notification must be limited to those locations within IHSS Group 400-2 specifically considered and approved as data become available. Division approval will be granted through the consultative process as documented in a contact record.

If you have any questions regarding this correspondence, please contact me at (303) 692-3367, Harlen Amscough at 303-692-3337 or David Kruchek at 303-693-3328.

Sincerely,

Steven H. Gunderson
RFCA Project Coordinator
